

Defoamer

DF-900 High concentrated silicone defoamer

DESCRIPTION DF-900 is a high concentrated silicone defoamer excellent defoamer and deaerator for solvent-based formulations. It is a liquid and has outstanding performance particular in higher viscosity formulations.

TYPE Organo-modified polysiloxane, containing fumed silica

- KEY FEATURES**
- Comparable with Tego 900
 - Outstanding performance particularly in higher viscosity formulations
 - Excellent defoamer for solvent-based, solvent-free and radiation curing coating systems.
 - Recommended to use for self-leveling floor coatings and to be applied by brush, roller, or airless spraying

TYPICAL PROPERTIES	Appearance	Brown turbid liquid
	Nonvolatile matter content (%)	100
Density (g/cm³)	1.0	

APPLICATION

- Solvent based coatings
- Radiation curing coatings
- 2-pack epoxy system etc.

Recommended Levels: 0.05-1.0% additive (as supplied) based upon total formulation.

- STORAGE AND HANDLING**
- Available in 25 kg/barrel or 200kg/barrel
 - Store products in tightly closed original containers at 5-40°C
 - Shelf life: 12 months from delivery date
 - According to non-dangerous goods transport
